

Hematologic Oncologist or Medical Oncologist

[Health PEI](#) is currently seeking a Hematologic Oncologist or a Medical Oncologist, with a strong interest in hematologic oncology, to join a multidisciplinary oncology team.

The Prince Edward Island Cancer Treatment Centre is a small but modern medical and radiation oncology facility attached to the [Queen Elizabeth Hospital](#) in Charlottetown. Services are also provided at a satellite centre in Summerside.

There are three practicing Medical Oncologists and two Radiation Oncologists, supported by GP Oncologists and a Nurse Practitioner. Additionally, there is a small clinical trials program.

Physicians have the option of choosing between a salary (with benefits), a professional contract, or a fee-for-service payment modality. Information related to payment modalities and volume incentives, including salary; fee-for-service tariff of fees; blended payments (shadow billings); on-call payments; and benefits including paid vacation, CME funding, RRSP program, and more can be found in the [Master Agreement](#).

This position is eligible for a Signing Bonus/Return-in-Service Grant and moving expense reimbursement. Other incentives include the potential opportunity for a faculty appointment at Dalhousie or Memorial University; EMR system (hospital-based); opportunities to participate and take leadership positions in local and national committees; and other incentives as per the Master Agreement.

The successful candidate must have certification, or be deemed eligible for certification, by the Royal College of Physicians and Surgeons of Canada; and eligible for licensure with the [College of Physicians and Surgeons of PEI](#).
